

PLAYGROUP

Children don't learn to speak their first language through grammar exercise and memorization drills, they learn by making connections between the objects and event they see and the words that other use to describe them.

Our NEW PLAYGROUP work the same way.

A combination of images, words and voices of native English teacher fully immerse the baby in a new language and they will learn by making connections between what they see, hear and say and the process is as natural as language itself.

By using above approach, this NEW playgroup program covers:

- English basics such as the Alphabet, counting and shape recognition
- Concepts such as up-down, over- under and many others.
- Classroom conversation and routine -tidy up; line up, manners, raising hands etc
- Weather, Days of the week, Holidays (including Birthdays)
- Nursery rhymes that incorporate visual learning through songs are a valuable experience for them getting ready for a kindergarten routine, "Humpty Dumpty", "The Wheels on the Bus" etc
- Learning through play techniques
- Arts and crafts and Painting that reinforce the lesson will be made and taken home with each child
- No cook cooking

In additional, each class students will have great opportunities to socialize with there peers and develop social and motor skills so important to early learning!

A certificate signed by the teacher will be given to each student upon completion of the course.
